Mobility Apps

Lead the generational step change

ilogistics
MOBILITY

Key Benefits

- Improved productivity
- Hassle free traveler boarding
- Quick material receipts
- End-to-end personnel and material Visibility
- Paperless supply chain

iLogistics Go Traveller App

Make it easy for workforce travellers to manage crew rotations and end-to-end travel itinerary from home to work sites via aviation, marine & ground modes of transportation including accommodation at remote camps & deep-water offshore installations. Checkout iLogistics go at iOS and Android Play Stores today.

iLogistics Go Travel Approval App

Enable supervisors to authorise travel and accommodation requests, working from anywhere anytime.

iLogistics Check-In App

Make life easy for field dispatchers with e-manifesting and tablet based smart check-in of travelers at airports, heliports, marine terminals, camps, offshore locations in a touchless way by simply scanning iLogistics Go QR codes/RFID/ smart badges. Download iLogistics Check In app at iOS and android play stores today.

iLogistics Meet & Greet App

Enable Meet & Greet field staffs to review the arrival and departure list of passengers at airports, bus stations and train stations to confirm meet and greet with additional information on health screening and safety checklist compliance.

iLogistics POB Tracker App

Empower offshore field dispatchers with offline handheld based check-in, checkout and tracking of POB at field vessels, manned and unmanned installations. Realize business value with e2e people tracking and NPT reduction while ensuring safety compliance.

iLogistics Driver App

Enable drivers to perform Real-time journey updates and location sharing to ensure safe journey management.
iLogistics Cargo Scanner App: Take a leap forward towards improving supply chain operational efficiency and visibility

with handheld scanning of barcode/RFID/NFC tags for quick receipts of cargo in-transit and at end destinations. Simply scan the tags to complete cargo loading to trucks, vessels and cages to take full control of last mile logistics.

iLogistics Field Ticketing App

Replace paper based ticketing at onshore fields by allowing field personnel to quickly update work tickets, complete jobs and deliver real-time field data.

Multi Language Screen Configurations

iLogistics apps deliver a clean, intuitive & simple to use interface and supports multiple languages including English, Spanish, Portuguese, Arabic, Russian, Kazakh and French. All the apps are seamlessly connected to iLogistics cloud technology platform for end to end logistics management.
