

## Expand Your Reach

Our **iHospitality Agency** equips hotels and other suppliers with a branded portal that tour operators, travel agents and affinity groups can use to directly connect, shop and book their preferred rates in **real-time**. In addition, it automates your contracting processes with small tour operators, allowing you an efficient way to sell broadly to many smaller distribution channels. The **iHospitality Agency** will help you **reach niche travel markets** across the world that hotels otherwise have difficulty accessing. This enables greater visibility and control over bookings, and can help you expand your reach and product set.

The **iHospitality Agency** expands your opportunity for revenue and market share with greater efficiency, giving greater control over the retailing process. It supports push messaging, promotions, and up-selling. It may be your best solution for corporate travel users, loyalty clubs, affinity groups and travel agencies. It has a multi-purpose functionality and can be adapted and deployed to multiple instances.
