Take control of Personnel-on-Board.
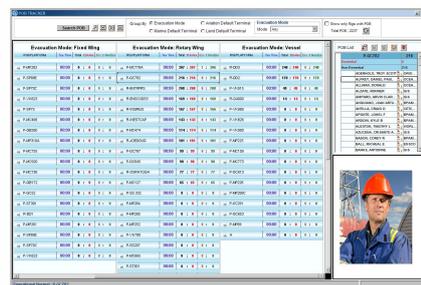

iLogistics POB

What is iLogistics?

iLogistics is a multi-modal logistics management system designed to manage logistics operations pertaining to exploration and production (upstream) operations of oil and gas companies. Brought to you by IBS, a leading supplier of Travel, Transportation and Logistics solutions for global leaders, iLogistics covers the end-to-end operations of the upstream logistics value chain.

What is iLogistics PoB?

iLogistics PoB is the personnel control center of the iLogistics suite, and as an independent application, it is one of the leading Personnel-on-Board management solutions available. It powers your personnel management capabilities through a host of features focusing on allocation, scheduling, training validation, optimizing and tracking personnel besides platform management and emergency evacuation preparedness.
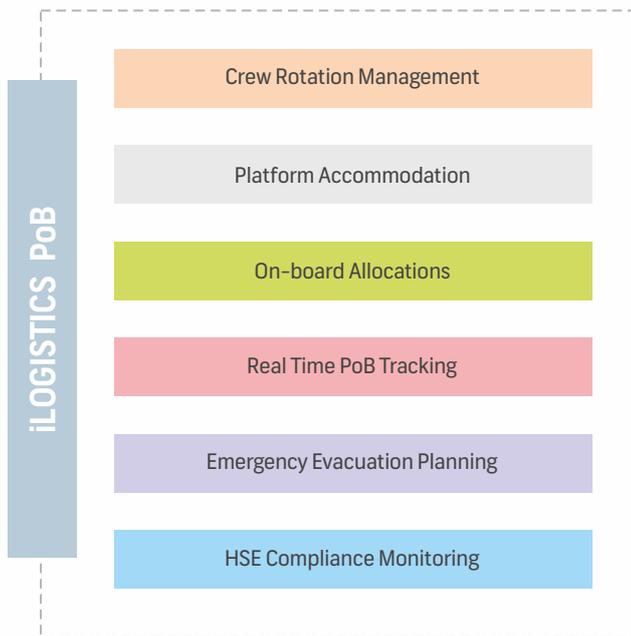

Key Benefits

✓ Improves traceability in location of people on platforms, camps or transport resources

✓ Ensures the availability of right personnel through training and safety certification validations

✓ Improved predictabilty of offshore asset utilization by integrated crew rotation and journey management

✓ Reduces manual intervention in accommodation management

iLogistics PoB Tracker helps retrieve accurate PoB count across platforms for emergency response coordination

> "With iLogistics PoB, crew scheduling, on-board allocations and people tracking can be managed with maximum safety, transparency and accuracy."

Safe accommodation management: A comprehensive set of functions in the system addresses HSE concerns on board an offshore facility. Validations on Max PoB, safe manning level, course compliance and incident tracking ensures safe accommodation.

Integrated PoB: iLogistics provides unique multi-modal integration across aviation, marine and land modules which ensures seamless information flow for better planning and tracking of passenger movement. Last minute changes made to planned activities can be easily accommodated without disrupting the day's plan.

Personnel Tracking: The system offers real time graphical view of personnel at each location. Integrated journey management and automated check-in/check-out using RFID enables the system to give an accurate view of the personnel on board. The system has inbuilt business continuity to ensure 24x7 emergency response.

Rapid emergency response: The centralized command and control dashboard gives a consolidated view of PoB of all offshore assets in a field/block. This single view enables the platform manager, offshore and onshore response team to quickly coordinate in the event of an emergency.

iLOGISTICS PoB

- Crew Rotation Management
- Platform Accommodation
- On-board Allocations
- Real Time PoB Tracking
- Emergency Evacuation Planning
- HSE Compliance Monitoring
