IBS Software Appoints Anand Krishnan as Chief Executive Officer

08 January 2018, Trivandrum: IBS Software, the leading provider of new-generation IT solutions to the global Travel, Transportation and Logistics industry, announced the appointment of Anand Krishnan as its Chief Executive Officer. Reporting to IBS Group Executive Chairman V K Mathews, Anand will lead IBS' worldwide operations and over 3000 employees globally.

"Anand's prior experience in operating global businesses, leading multinational and multicultural workforces & driving growth make him eminently suitable for leading IBS through the next phase in our journey", says V K Mathews. "With over 170 customers and counting, IBS is at an inflection point. I am confident that Anand will be able to help unleash its potential and drive towards its goals."

Anand comes to IBS with a 20-yr track record of building high-growth software businesses. Most recently, he served as Executive Vice-President at Canonical Software where he led the commercialization and growth of the Ubuntu business. Prior to that, he held several executive positions over a decade at Microsoft Corp and was responsible for launching and growing Microsoft's Cloud business internationally. Before that, he was an early-hire at enterprise software startup Trilogy Software and helped scale the company to triple-digit millions in revenues. Anand holds a Masters in Computer Engineering from the University of Texas and an MBA from Stanford University. He remains based in London.

"IBS has deep customer relationships, a track record of products that deliver as promised, strong domain expertise and a deep pool of talent to pull from," said Anand. "As our customers look for ways to become truly digitally-enabled, we have an incredible opportunity to help transform the Travel industry. I couldn't be more excited about joining the IBS team and working on that mission"

About IBS: IBS Software is a leading provider of new-generation IT solutions to the global Travel, Transportation & Logistics (TTL) industry. Its offerings manage mission-critical operations of major airlines, airports, oil and gas companies, cruise lines and tour operators world-wide. IBS currently owns IP rights to 17 software products in the areas of Airline Passenger Services, Airline & Airport Operations, Airline Cargo & Logistics, Oil & Gas Logistics, Travel & Cruise management and Hospitality Distribution. IBS also offers bespoke software services in these business domains. IBS operates out of offices in the Americas, Europe, the Middle East and Africa and the Asia – Pacific.
